LEXA GOLD IS AN AI, METAVERSE & WEB3 BASED UTILITY PROJECT

LEXA GOLD

Whitepaper Version 1.0

Lexa Gold is the world's leading decentralized AI marketplace, running on Blockchain, and is a universe created by you, where your creativity resides set boundaries. Craft and trade wearables and emotes, craft enchanting environments and engaging interactions, or establish a personal space in your own universe. Lexa Gold finds new expression on Web3 applications through arts, gaming, entertainment, content-creation, web3 social community platform and events.
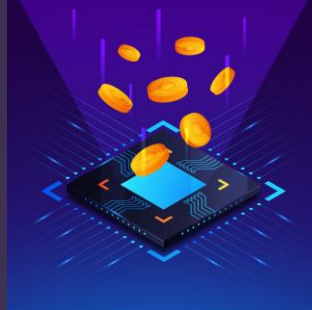

About Lexa Gold (LEXA)

Our main goal is to develop metaverse, artificial intelligence, and social network, create and develop cutting-edge Web3 applications on LEXA platform. Lexa Gold (LEXA) is a community-based Defi project launched on the Binance Smart Chain (BSC) which is a decentralized.

Lexa Gold serves as the governance utility project within the ecosystem, enabling LEXA holders to engage in the operations. Providing every participant with a common and transparent currency that can be utilized without the need for centralized intermediaries.

Lexa Gold provides online gold trading platform where users can buy, sell and storage gold anytime, anywhere in the whole world according to their personal ability and convenience with the payment method of Lexa Gold. Lexa Gold is a Binance Smart Chain (BSC) deflationary token. The circulating supply of Lexa Gold is 1,000,000,000 LEXA. No minting within the contract interface, ensuring the circulating supply will be decreased by its 0.1% auto burn process and it will be stopped when the total supply reaches 500,000,000 LEXA (50% burn).

FEATURES / USE CASES

Swap, Farming & Stacking

AMM (Automated Market Maker) is the world's first decentralized exchange with yield farms and static rewards that allow investors to hold Lexa Gold to earn while sleeping. Lexa Gold has many innovative features that help users earn and win big. Lexa Gold will be a complete ecosystem that will provide features like Swap, Lottery, Token Offer, IDO, Yield Farm, Launchpad, Syrup Pool, etc.

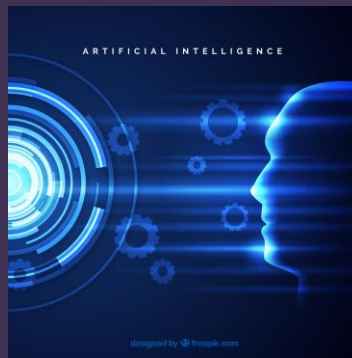

NFT Marketplace

An NFT marketplace where you can buy and sell NFTs. The Nft marketplace was designed to best support the Lexa Gold . We will support and use our own Lexa Gold in the marketplace. Apart from this, the commission rate will be decreased every month. Display your designs that will be unique, take part in a unique project, display your designs in the marketplace.

Lottery, Games & Watch

Play-to-earn games are becoming a popular offering in the blockchain gaming industry as they enable gamers to own the in-game assets they purchase. Assets are minted as non-fungible tokens (NFTs) and can often be traded on platforms outside of the game universe. The platform offers you access to games and lotteries. We provide "watch-to-earn" option for our proud users .

Artificial Intelligence (AI)

Lexa Gold is simultaneously building a network of entities that will power the platform with AI services and stimulate mass adoption. These Lexa Gold offshoots are running across several carefully selected vertical markets, including DeFi, Media, Arts, Entertainment, Gaming, Biotech, Robotics, Longevity, and Enterprise-Level AI.

Metaverse Land

Buy land and turn it into a place where culture and creativity can flourish. Showcase your creations, host events and more. Whether you want to build unique experiences or design voxel-based NFTs, our creative tools can help bring your imagination to life in the Metaverse. You create everything and sell your best work in the marketplace!

Gold Buy Sell

Lexa Gold Marketplace aims to make access to gold easy and affordable for everyone. Now it is possible to start saving your gold from the palm of your hand. Lexa Gold facilitates 365/24/7 gold sales. the market Ensures collectability of stored gold through safe and secure methods.

The Vision Behind LexaGold

LexaGold aims to **empower individuals** globally by offering innovative solutions that bridge the gap between **traditional finance** and the rapidly evolving **Web3** space. The vision is to create a **transparent**, **scalable**, and **secure** decentralized ecosystem that caters to every level of user — whether you are a trader, investor, content creator, or gamer.

The platform is designed to **increase financial inclusivity**, provide an easy entry into digital assets, and ensure **long-term sustainability** by integrating passive income features, DeFi mechanisms, and AI-driven solutions.

Core Features

AI-Powered Trading & Payments

LexaGold employs **artificial intelligence** to create an **automated trading experience** that optimizes investment strategies, ensuring that users make the most of market fluctuations. **AI trading bots** help users execute the best trades based on real-time data, ensuring both novices and professionals benefit from the platform's automated trading capabilities.

- **AI-driven market predictions**: Improve trading strategies with machine learning models that predict market trends.
- **Cross-platform compatibility**: Utilize a seamless trading experience across **web, mobile**, and **decentralized exchanges (DEX)**.
- **Customizable trading preferences**: Tailor your AI strategies to your risk tolerance and trading style.

DeFi Ecosystem & Passive Income

LexaGold offers users the opportunity to earn passive income through **staking**, **yield farming**, and **liquidity mining**. By utilizing the LEXA token,

users can earn rewards and passive returns.

- **Staking**: Secure your LEXA tokens and earn rewards through staking mechanisms.
- **Yield Farming**: Engage in yield farming and liquidity provision to generate passive income.
- **DeFi Lending and Borrowing**: Access loans by staking collateral and earn interest by lending your assets.

Gold Trading & Secure Storage

LexaGold offers **secure trading of both physical and digital gold** through tokenization, ensuring that assets are accessible, tradable, and securely stored. Our **gold-backed tokens** offer a hedge against market volatility and inflation.

- **Secure vaults** for gold-backed tokens.
- **Cross-border gold trading** with low fees.
- **Transparent pricing** and audits to ensure fair gold valuation.

The Metaverse

LexaGold integrates the **Metaverse** into its platform by offering a space where users can buy, sell, and trade virtual assets. Users can also create **immersive experiences**, including NFTs, wearables, and land ownership.

- **Virtual Real Estate**: Buy, sell, and develop digital land within LexaGold's Metaverse.
- **NFT Marketplace**: Trade NFTs including art, collectibles, and in-game items.
- **3D Virtual Experiences**: Create and monetize immersive experiences in the LexaGold Metaverse.

Decentralized Autonomous Organization (DAO)

LexaGold will implement a **DAO** structure, allowing token holders to have a say in the governance of the platform. This ensures that **community-**

driven decisions guide the development of the ecosystem.

- **Voting Mechanism**: Token holders can vote on proposals and the direction of the platform.
- **Governance Transparency**: All proposals and votes are publicly available for transparency.
- **Community Incentives**: Token holders are rewarded for their participation in governance.

Multi-chain Integration

LexaGold will support **cross-chain interoperability**, allowing users to interact with multiple blockchain ecosystems, ensuring greater liquidity and accessibility.

Tokenomics

The **LEXA token** is a utility token designed to fuel the **LexaGold** ecosystem. Below is a detailed breakdown of its **tokenomics**:

Token Distribution & Allocation

- **Total Supply**: 1,000,000,000 LEXA tokens
- **Private Sale**: 5% (50 million LEXA)
- **Pre-Sale**: 25% (250 million LEXA)
- **Crowd Sale**: 50% (500 million LEXA)
- **PancakeSwap Listing**: 10% (100 million LEXA)
- **Development Fund**: 3% (30 million LEXA)
- **Marketing Fund**: 5% (50 million LEXA)
- **Community Fund**: 2% (20 million LEXA)

Deflationary Mechanism

- **Burn Mechanism**: 0.1% of every transaction is burned, reducing the total supply over time and increasing the token's value.
- **Staking & Rewards**: Stakers earn **dividends** and **rewards** in LEXA tokens, which can be reinvested for further gains.

LEXA Allocation

- 5% Private Sale Allocation (Sale-Price: $0.05)
- 25% Pre Sale Allocation (Sale-Price: $0.06)
- 50% Crowd Sale Allocation (Sale-Price: $0.08-$0.10)
- 10% Pancakeswap Listing (Price: $0.50-$1.00)
- 3% Dev Allocation
- 3% Marketing Allocation
- 2% Anti-Climate Change Allocation
- 2% Flood & Natural Disaster Relief Allocation

Use Cases of LEXA Token

- **Governance**: Vote on important platform upgrades and decisions.
- **Transaction Fees**: Used to pay for transaction fees on the platform.
- **Staking and Yield Farming**: Stake your tokens to earn rewards and participate in liquidity mining.
- **In-game Purchases**: Use LEXA for buying virtual goods in the Metaverse.

Roadmap

Q1 2025

- Launch **AI-powered trading bot**.
- Initial **DEX Listing** on PancakeSwap.
- Launch of **gold trading platform** with tokenization of assets.

Q2 2025

- Introduction of **Yield Farming** and **Staking**.
- Expand **Metaverse** functionality with land sales and virtual goods marketplace.
- Integrate **multi-chain compatibility**.

Q3 2025

- Launch of **DAO Governance** system.
- Global **Partnerships** with major exchanges.
- Expand **NFT Marketplace** for digital assets and collectibles.

Q4 2025

- Official **Token Burn Event** to reduce circulating supply.
- Expanded **gold token** offerings and **cross-border** trading.
- Global **Marketing Campaign** targeting major crypto communities.

Q5 2026

- **Institutional Partnerships** and integration with traditional finance.
- Launch of **LexaGold 2.0**, with enhanced user experience, features, and integration of AI tools.
- Full implementation of **LexaGold's DeFi ecosystem**.

The Ripple Killer Strategy

LexaGold is positioned as the "**Ripple Killer**" due to its **speed**, **low-fees**, and **advanced technology**.
Unlike Ripple, LexaGold utilizes a decentralized approach to cross-border payments, **reducing dependency on banks and intermediaries**, which **lower transaction costs** significantly.

KEY FEATURES

Staking LEXA & Earn
Web3 social community
Metaverse with LEXA
AI with LEXA
Buy Lottery ticket with LEXA

Gift LEXA your friend & family
LEXA NFTs platform
Gold buy sell & trade with LEXA
Get LEXA by "play-to-earn"
Get LEXA by "watch-to-earn"
Get LEXA by "write-to-earn"
Get LEXA by "learn-to-earn"
LEXA charity
More features added day by day

Conclusion

LexaGold is positioned to be a **game-changer** in the world of **Web3** and **digital assets**. The platform's **AI-powered tools**, **DeFi integration**, **gold trading**, and **Metaverse** capabilities make it a unique project with immense potential for growth. Whether you're looking to participate in **passive income generation**, make **cross-border payments**, or engage in the **Metaverse**, LexaGold provides an all-in-one solution for the future of digital finance.
